

Superior Training from TYMCO

We want you to understand the Regenerative Air System and your TYMCO sweeper completely, so you can get optimal performance from your equipment investment. That's why, for more than twenty-five years, we've offered two-day scheduled training schools at our facility in Waco, Texas. Owners, managers, operators and mechanics get hands-on training and answers to specific questions. Enrollment levels are kept low, so you and your team will get personal attention as well as the opportunity to learn from the experiences of other attendees through the interaction of the class.

Model 600 Illustration

When your operators and mechanics are thoroughly trained and knowledgeable about the TYMCO sweeper, you get better performance and a lower cost per operating hour.

- TYMCO offers full two-day schools
- Choose from over 30 schools scheduled per year
- Yearly class schedules and class agendas are available
- Learn through demonstrations on an operational sweeper
- Special schools arranged for large groups
- Register to attend on our web site

Specifically designed for training, our 3500 square foot, temperature controlled facility provides ample space for demonstrations on an operational sweeper and systems components. We also provide daily ground transportation from the hotel to our training facility, and lunch is on us.

Convenient Dealer Service Centers

In over 50 U.S. locations and dozens of others worldwide, you receive on-the-spot parts and service from TYMCO's exclusive network of dealers.

This product is protected by numerous U.S. and Foreign Patents.

Model 210®

When you want to pick up more than just litter... **TYMCO Regenerative Air Cleans Deeper**TM

TYMCO's patented centrifugal dust separator keeps the fines and dust inside the hopper. No filters or baffles to clean or replace. Powerful RAS blower.

Cab light bar.

Storage box has large 14.5 cubic foot area with easy access storage for brooms, shovels and tools (cabover model only).

Additional water capacity.

Powerful hand hose for hard to reach places.

Heavy-duty steel hopper for long-term durability.

Easy to open hydraulic dump door lets you dispose of bulky items quickly and safely.

Slide-out screen increases clean out efficiency.

Heavy duty hydraulic dump cylinders for high dumping those heavy loads.

Heavy-duty wrap-around rear bumper and fenders for sweeper protection.

Model 210[®] can be mounted on cabover or conventional cab chassis.

Convenient inside-cab, operator friendly sweeper controls. Gauges and controls are illuminated for better night visibility.

Patented TYMCO gutter broom – with steel diggers or poly wafer – provides more cleaning power with less maintenance.

Time-tested, heavy duty pick-up head propels a controlled jet of air through the blast orifice creating maximum pressure and powerful suction across the entire width of the pick-up head.
